2. Long press the button to turn on the warm light/long press to turn on colorful light/long press again to turn off the light.

Caution light:

1. Flashing blue light indicates that it is working, and it also indicates that there is a battery;
2. When the blue light goes out, it means that there is no electricity, and the charge is cleared;
3. The blue light flashes during charging, and the long light indicates that it is full;

Charging use:

This product can be used offline (battery version) or directly connected; Turn on spray humidification or atmosphere lighting.

Tips:

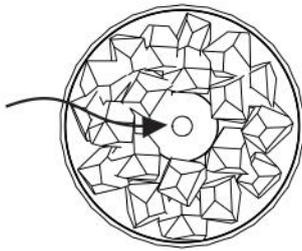

When the humidifier stops working, please check whether the battery has electricity and whether the power cord is plugged in or damaged, which is not caused by machine failure.

Note:

1. Do not add essential oil, perfume or other corrosive liquid to the water tank;
2. Do not use pure water or steamed water, only use clean tap water or mineral water;
3. Do not disassemble the product privately;
4. Do not allow children to use the product alone;
5. Do not throw the product into the fire source

Instructions

1. Do not press the spray through the salt stone.

2. Do not exceed this line when adding water

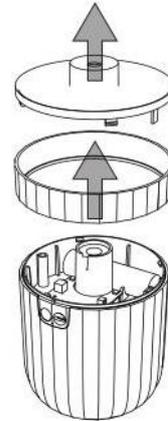

The battery can only be removed in the recycled inch. Do not disassemble it for other purposes.

- . The battery must be removed and taken out before the waste appliance;
- . Before removing the battery, make sure that it has been powered off before operating;
- . The battery should be handled safely and properly.

Steps to remove the battery:

1. Remove inner shell first;
2. Pull out the power cable and take out the battery.
